DETAILED ACTION

1. Applicant's amendments filed on 4/28/2005 has been received and entered in the case.
2. Applicant's arguments with respect to the claim(s) have been fully considered and are persuasive.

Allowable Subject Matter

3. Claims 1-16 are allowed.
4. The following is an examiner's statement of reasons for allowance: In view of the limitations presented in the claims, the prior art does not disclose or suggest a motor driving system including a power supply, a voltage stabilizing unit and a driving element, wherein the driving element includes a signal generating unit, a comparing unit, and a control unit, for which a constant voltage is produced and compared to an input signal, so the input signal changes with the constant voltage, setting a lowest rotating speed for the motor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
